AN APPLICITED FAMILY.—We were accosted on the street yesterday by one of the most prominent physicians in this city, who told us that he had just witnessed one of the saddest sights he had ever seen—three little coffins being taken to one house, that of John Neidhart, a farmer living in the old Reilly homestead, above Manchester. The cause of death we subsequently learned was diphtheria, and also that the children had all died in one day, and that two others were not likely to live until this morning.

COUNCILMANC ETHICS. — During the course of a somewhat heated discussion in the Second Branch of Council last night, on a resolution authorizing the construction of a sewer across McColloch and Thirty-third streets, Dr. Reeves remarked that it appeared to him that the measure was for the benefit of the Nail City Brewing Company alone, when Mr. Watt interrupted him with the remark: "You do not know what you are talking about. You talk like a d—d fool." Dr. Logan at once called Mr. Wait to order, saying, "No such language will be permitted in this room." The affair caused quite a sensation, gud is only a sample of some of the "backs and forths in this branch."

WATCH PRESENTATION.—A very pleasant affair came off at Gus Mathews' saloon, market square, last night. Kramer's full band had been engaged ostensibly to play for a concert there, but really to witness the presentation of a magnificent gold watch to Prof. Francis Joseph Kramer. After the rendition of several pieces of music, about nine o'elock, Captain B. B. Dovener approached Joe in a "surreptios" manner and in behalf of the members of his band and other admiring friends presented him with the watch. Joe was utterly unpropared for anything of the kind as he had received no intimation of the affair, but managed to respond in a very graceful manner. Upon the inside of the case was the inscription: "Presented by members of the band tion: "Presented by members of the ban and friends to F. J. WHARFAGE. — Considerable discussion took place last night in the First Branch of Council over the change in the Wharf Ordinance, which increases the rates of wharfage about one hundred per cent. It was urged that under the reductions heretofore made the receipts have fallen to such an amount that they do not suffice to keep the wharf in order, and there is a disposition manifested among members of both branches to put rates back where they were before the late reductions were made.
